ABOUT US

Protect Building Contracting Company is a specialized company in providing general contracting and integrated construction services. We possess extensive experience and high efficiency in executing various types of projects, adhering to the highest standards of quality and safety. The company offers a wide range of services including asphalt works, landscaping and beautification, steel structure construction, security fence installation, general construction works, in addition to precise manual excavation in petroleum company sites – all in compliance with technical requirements and safety regulations in this vital sector.

At Protect Building, we believe in the importance of quality and precision in execution. We continuously strive to develop our technical and human capabilities to meet and exceed our clients' expectations. Our work relies on a specialized team of experienced engineers and technicians, along with the use of modern equipment and certified materials to ensure timely project delivery in accordance with the required specifications.

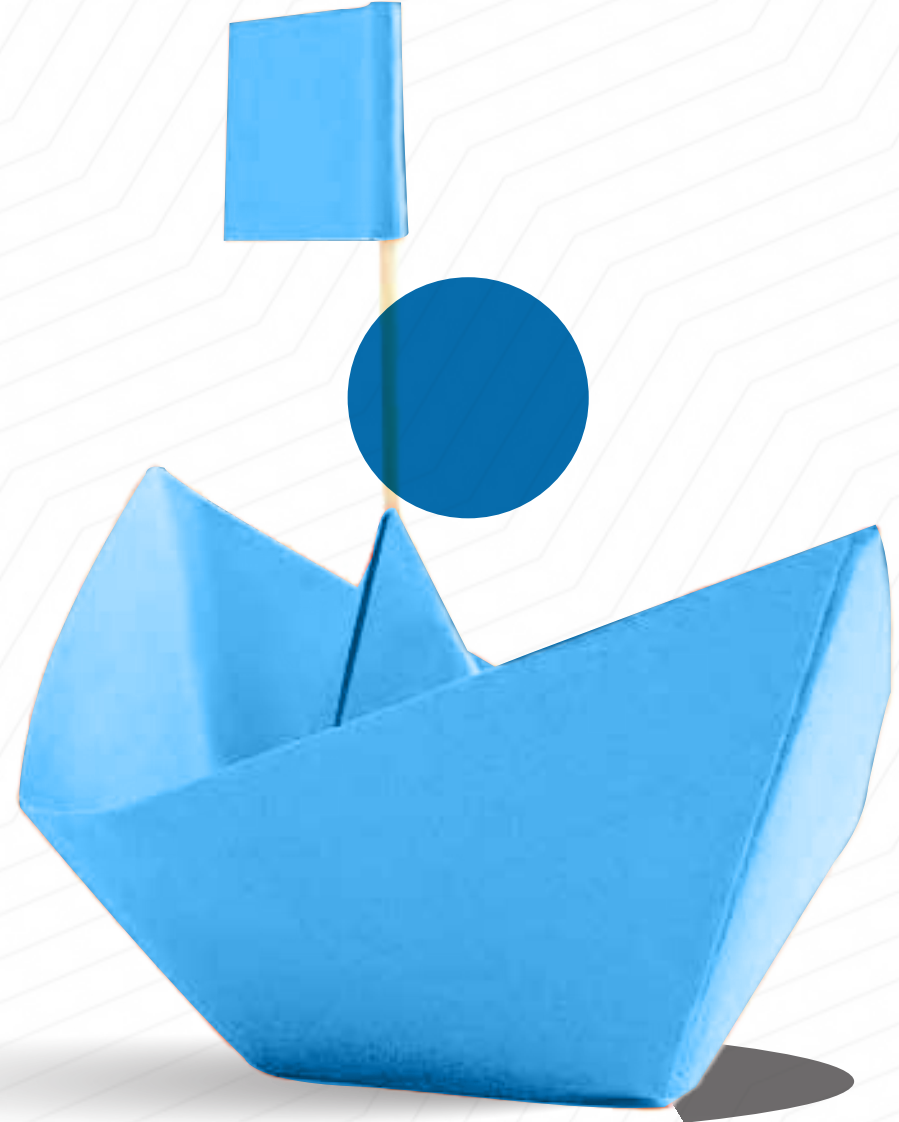

MD MESSAGE

Welcome to Protect Building, where quality, safety, and reliability are at the core of everything we do. With a skilled team and modern resources, we proudly deliver diverse contracting services – from infrastructure and steel works to specialized excavation – all in line with the highest standards. We value our clients' trust and strive to exceed expectations through professionalism, precision, and continuous improvement.

MISSION

Our mission at Protect Building Contracting is to deliver high-quality construction services that exceed client expectations, through professional teams, approved materials, and best engineering practices. We are committed to safety, efficiency, and timely delivery – contributing to sustainable development in line with Saudi Vision 2030.

BUSINESS STRATEGY

At Protect Building Contracting, our strategy focuses on delivering high-quality projects efficiently, safely, and on time. We rely on skilled teams, modern technologies, and strong client relationships to ensure excellence at every stage. Our approach emphasizes quality, safety, innovation, sustainability, and continuous improvement – all aligned with our commitment to client satisfaction and long-term success.

QUALITY & EXCELLENCE

Delivering projects to the highest standards for client satisfaction and continuity.

SAFETY

Enforcing strict health and safety measures on all sites.

EFFICIENCY

Streamlining operations to boost productivity and reduce waste.

TEAM DEVELOPMENT

Training staff to enhance skills and professionalism.

OUR OBJECTIVES

Execute high-quality projects in line with the best engineering and technical standards to ensure excellence.

04

Develop human capital through continuous training and building skilled, professional teams.

03

Enhance innovation in project execution by adopting the latest technologies and engineering techniques.

02

Achieve client satisfaction through precision, on-time delivery, and quality execution.

01

QUALITY POLICY

Protect Building Contracting is committed to applying the highest quality standards across all its operations and projects, with the goal of achieving customer satisfaction and meeting requirements with precision and efficiency. We rely on certified quality systems, a skilled professional team, and continuous monitoring to ensure compliance with both local and international engineering standards. We also prioritize continuous improvement by regularly reviewing procedures, developing staff capabilities, and adopting the latest technologies – all to ensure sustainability and excellence in the services we provide.

SECURITY AND SAFETY POLICY

At Protect Building Contracting, we are fully committed to maintaining the highest levels of security and safety across all our project sites. Our policy is centered on protecting the health and well-being of our employees, clients, and partners, while ensuring secure and compliant work environments. We implement strict safety protocols, conduct regular risk assessments, and provide continuous training to all staff on health, safety, and emergency response procedures. Through adherence to national and international safety standards, we aim to prevent incidents, reduce hazards, and promote a culture of responsibility, awareness, and continuous improvement in all our operations.

OUR ADVANTAGES

The company has extensive experience in diverse projects, enabling it to efficiently handle various challenges.

01

The company follows top technical and safety standards, especially in vital sectors like oilfields.

02

The company offers a full range of contracting services, from asphalt to general construction.

03

The company relies on skilled technical and engineering teams to ensure quality execution.

04

The company uses advanced equipment and certified materials to ensure efficient, high-quality project execution.

05

OUR SERVICES

Asphalt works

Asphalt works are one of the core services offered by Protect Building as part of its integrated contracting solutions. The company has extensive experience in executing road paving projects, including streets, yards, and parking areas, while adhering to the highest technical standards and using certified materials and modern equipment to ensure surface quality and durability. It ensures timely project execution tailored to client needs, and also provides maintenance and repair services to address cracks and potholes. With its specialized team and advanced machinery, the company delivers effective and sustainable solutions across all stages of asphalt work.

Landscape Works

Protect Building offers comprehensive services in landscaping and beautification, including the design and implementation of green spaces, public and private gardens, tree and plant installation, and the construction of modern irrigation systems. The company also provides interlock paving services using interlocking tiles in various shapes and designs that suit the site's nature, adding both aesthetic and functional value to walkways and open areas. Through these services, the company aims to enhance the visual appeal of the surrounding environment and improve quality of life. It relies on a team of specialized engineers and technicians, along with the use of high-quality materials.

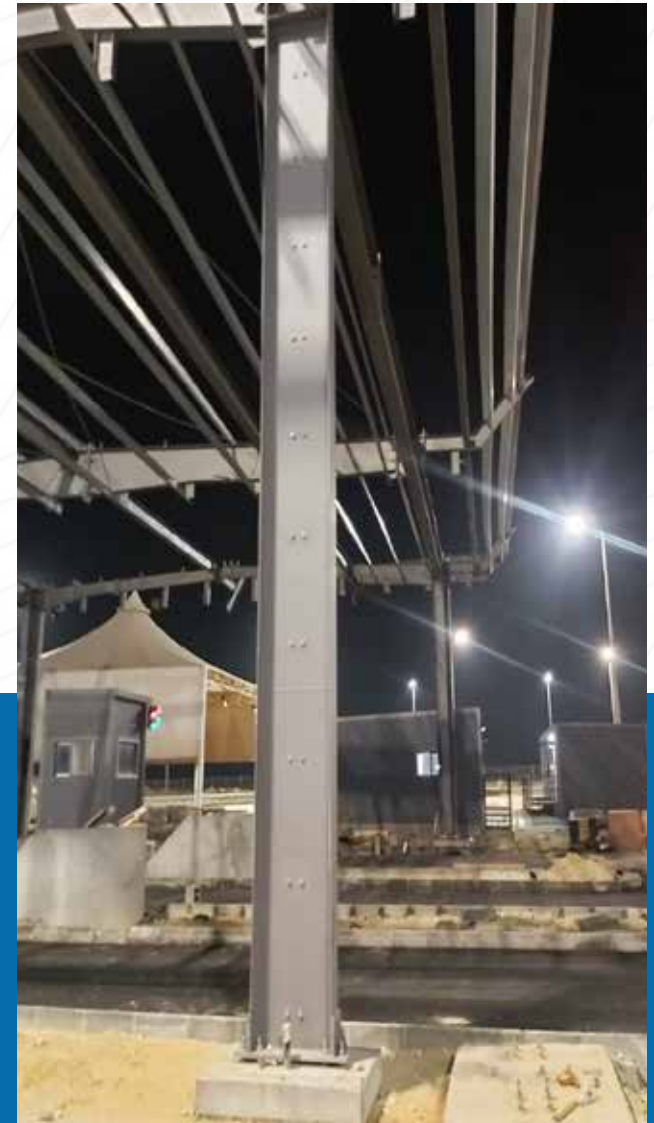

Steel Structure Works

Steel structure works are one of the core services provided by Protect Building as part of its advanced construction projects. The company has extensive experience in designing, fabricating, and installing steel structures for various types of industrial, commercial, and warehouse facilities, in accordance with the highest engineering standards. High-quality, weather-resistant steel materials are used, along with modern technologies that ensure precision in fabrication and speed in installation. Protect Building offers flexible and cost-effective solutions tailored to each project's requirements, while ensuring structural safety and long-term sustainability—thanks to its team of qualified engineers and skilled technicians.

Security Fences Works

Protect Building provides specialized services in the supply and installation of security fences for various types of sites, including industrial areas, commercial zones, construction sites, and sensitive locations such as oil and gas facilities. The company uses high-quality, weather-resistant materials to ensure maximum safety and durability. Fence systems are implemented in accordance with technical specifications and safety standards, ensuring both efficiency and compatibility with the site's nature. Thanks to its qualified team and modern equipment, the company ensures precise execution and on-time delivery, offering clients reliable and long-lasting perimeter protection solutions.

Constructions Works

General construction works are a fundamental pillar of Protect Building's services. The company provides integrated solutions for executing various types of residential, commercial, and industrial projects – from preparing engineering designs to final project delivery. It adheres to the highest standards of quality and safety at all stages of execution, ensuring the use of approved construction materials and advanced equipment. Protect Building relies on a team of experienced engineers and technicians to ensure precise and efficient execution, delivering projects on time and in full compliance with client requirements and technical specifications.

Manual Excavation at Petrol Companies

Protect Building provides precise manual excavation services at petroleum company sites, where such tasks require high accuracy and strict compliance with safety standards due to the sensitive nature of the work environment. The company relies on a trained and qualified team to perform excavation in confined spaces or near pipelines and critical infrastructure, using specialized hand tools to ensure the work is carried out without causing any damage to existing systems. Protect Building is committed to adhering to all technical procedures and industry regulations in the oil and gas sector to ensure worker safety and site protection during operations.

Registration Approval Letter

Aug 10, 2025

Attention : PROTECT BUILDING COMPANY

CR Number : 7650561450
Supplier Type: Service Provider Only
Country : Saudi Arabia

We are pleased to inform you that PROTECT BUILDING COMPANY is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10116237, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Faisal Hamad Al Dossary, Supervisor
Supplier Registration Unit
Supplier Relationship Management Div

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Arriba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (SCOCs and SCATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramco.com
